

Job Opening Summary

Position: Optics Cleaner
Department: Coat
Reports to: Coat Dept Work Leader

General Responsibilities Outline

We are seeking an Optics Cleaner to work in our Coating Department. You will be working in a Class 1000 clean room and be responsible for inspecting and cleaning optics to make sure it meets our standards. In a work environment similar to a science laboratory, you will receive glass and read work instructions to determine the requirements needed for each job. This work requires someone who is patient, analytical and is able to focus for longer periods of time to clean and validate part conformance. You will be required to sit for extended periods of time and clean and hold glass of various sizes. While similar experience is a plus, we will provide training to those we believe can carry out the responsibilities of the position.

Qualifications

- High School Diploma, GED, relevant vocational training, and/or relevant past experience in quality assurance
- Good eyesight, including near vision and depth perception
- Ability to work in a low-light setting
- Methodical and detail-oriented
- Organized
- Effective written and oral communicator
- Self-motivated and driven
- Ability to multi-task
- Strong work ethic
- Production-minded
- Proficiency in the use of standard computer software preferred

Company Profile

Since 1977 PFG Precision Optics has manufactured and coated ultra-high precision optics installed in various types of military and commercial equipment. Industries in which these optics are used include military, test & measurement, semiconductor, imaging, medical and telecommunications.

Company Benefits

PFG offers a competitive benefits package for our full-time employees, including: medical and dental insurance, life insurance and AD&D, short-term disability, simple IRA with company match, fitness center reimbursements, paid holidays and paid vacation.

“Perfection is Forever our Goal”
